1. Fill in the blank: You are working as a data analyst at a gas company and want to learn more about top-performing staff members. You create a _____, which states that employee success hinges on a successful onboarding process when people are first hired. You hope to either prove or disprove this theory with your data.

1 / 1 point

○ business task

🔘 hypothesis

○ statistic

○ trend

✅ **Correct**

---

2. Why is it important to state the insights from your graphic when using the McCandless method?

1 / 1 point

○ To make sure your audience understands why the data matters

○ To ensure that you establish credibility as a serious data analyst

○ To add a strong finish to your presentation

🔘 To get everyone on the same page before you give supporting details

✅ **Correct**

---

3. A researcher is presenting the data for their study. What can they do to ensure their presentation is impactful?

1 / 1 point

🔘 Ensure their delivery is as well executed as their analysis

○ Suppress their excitement to remain passive and neutral

○ Start with really narrow ideas and works towards broad ideas

○ Focus on the data instead of focusing on presentation skills

✅ **Correct**

---

4. One of your coworkers is giving their first presentation and wants advice. What can you tell them to help ensure a successful presentation?

0 / 1 point

○ Assume the audience has a lot on their mind

○ Include as many unrelated details as possible

○ Use long sentences to sound professional

🔘 Assume your audience knows what you do

❌ **Incorrect**

5. You are running a colleague test with your coworkers. One coworker points out that your data has limitations. What can you do to prepare to explain the limitations of your data? Select all that apply.

1 / 1 point

☑ Consider the context

✅ **Correct**

☑ Critically analyze any correlations

✅ **Correct**

☑ Understand the strength and weaknesses of your tools

✅ **Correct**

☐ Be ready with industry jargon and acronyms

6. During a presentation, one of your stakeholders expresses concern that you did not control for differences in the data. Which kind of objection are they making?

1 / 1 point

○ Analysis

● Findings

○ Data

○ Presentation Skills

✓ **Correct**

7. A stakeholder objects to the steps of your analysis. What are some appropriate ways to respond to this objection? Select all that apply.

1 / 1 point

☐ Defend the results of your analysis

☑ Take steps to investigate your analysis question further

✓ **Correct**

☑ Explain why you think any discrepancies exist

✓ **Correct**

☑ Communicate the assumptions you made in your analysis

✓ **Correct**

8. You are presenting to a large audience and want to keep everyone engaged during your Q&A. What can you do to ensure your audience doesn't grow disinterested despite its size?

1 / 1 point

● Ask your audience for insights

○ Wait longer for the audience to ask questions

○ Repeat your key findings

○ Keep your pitch level

✓ **Correct**
